

## THE GIRL WITH THE SQUEAKY BEHIND

It sounded as if she were farting  
And the looks she got were unkind  
But poor Giselle wasn't flatulent  
She simply suffered from "Squeaky Behind".

She would walk around at a party  
Smiling and chatting with boys  
But it sounded as if she were farting  
When her cheeks made that squeaking noise

In the end she became suicidal  
And threw herself under a bus  
But the bus driver stopped with a squealing of brakes  
And said, "Miss, why all this fuss?"

She explained that her bottom was noisy  
But he said, "My brakes also make squeaks  
Take this can of WD-40  
And spray it between your cheeks."

Now Giselle is 97 percent happy  
But her joy would be much more complete  
If she didn't have to wear a large nappy  
To stop sliding off every seat.
